

RESTRICTED USE PESTICIDE

Toxic to Fish and Aquatic Organisms

For retail sale to and use only by Certified Applicators, or persons under their direct supervision, and only for those uses covered by the Certified Applicator's certification

SUPPLEMENTAL LABELING

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF NEVADA

DISCIPLINE™ 2EC

EPA REG. NO. 5481-517

EPA SLN NO. NV-050001

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This label must be in possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, and precautions on the EPA registered label.

ALFALFA GROWN FOR SEED

Aphids, Lygus Bugs, Thrips, Spider Mites, Weevils: Apply 3.9 to 6.4 ounces (0.06 to 0.1lb. a.i.) per acre. Apply in a minimum of 20 gallons if sprayed by ground equipment or in a minimum of 5 gallons if sprayed by air. When applying by air, 1 quart of emulsified oil may be substituted for 1 quart of water in the finished spray. DO NOT apply more than 6.4 ounces (0.1 lb .a.i.) per acre per treatment or more than 19.2 ounces (0.3 lb. active) per season. Maintain a minimum of 21 days between Discipline 2EC treatments. Rotational crops may be planted no sooner than 30 days after last application. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or broadleaf weeds. Do not apply this product to blooming crops or weeds if bees are actively visiting the treatment area. Refer to the EPA registered label for information on chemigation directions.

For aerial applications, the spray boom should be mounted on the aircraft so as to minimize drift caused by wingtip or rotor vortices. The minimum practical boom length should be used and must not exceed 75% of the wingspan or rotor diameter. Make aerial or ground applications when the wind velocity favors on target deposition (approximately 3 to 10 MPH). Do not apply when wind velocity exceeds 15 MPH. Follow the spray drift precautions on the EPA registered label.

Discipline 2EC may pose a hazard to endangered aquatic species. Do not apply Discipline 2EC within 25 feet or by air within 150 feet of lakes, reservoirs, rivers, permanent streams, marshes, or natural ponds, estuaries and commercial fish farm ponds. Do not apply when weather conditions would favor drift or run-off from a proposed treatment site into fish bearing waters. Risk of exposure to aquatic areas can be reduced by avoiding application when wind direction is toward the aquatic area. Do not cultivate within 10 feet of the aquatic area so as to allow growth of a vegetative filter strip to alleviate drift and mitigate runoff.

DO NOT use treated seed or crop parts for food, feed or oil purposes. DO NOT cut current year's treated alfalfa seed crop for hay or forage. Treated alfalfa seed is not to be used for sprouting. All alfalfa seed treated with Discipline 2EC is to be tagged "NOT FOR HUMAN OR ANIMAL CONSUMPTION" at the conditioning plant. It shall be the grower's responsibility to notify conditioning plant of any alfalfa seed treated with Discipline 2EC. All alfalfa seed screenings shall be disposed of in such a way that they cannot be distributed or used for food or fee.

IMPORTANT: Read the entire Directions for Use and the Conditions of Sale and Limitation of Warranty and Liability before using this product.
